Dear Mr. Weisberg,

I am in receipt of your letter from 5/25/93. Certainly it was no problem to help you in receiving the video tape from Kiss.

In addition I appreciate your two comments. For your information I had decided to focus only on the Dallas aspect to start my investigation. By years end I hope to acquire this series of documents. As I have said to friends that I would "like to open a door without opening ten more" in these files. Should I go in all directions, this research would be a total waste. That in itself would be a crime.

Of course I will copy all records I have and all I will come into. I'll make sure they then get into your records. I'd consider it an honor to help you.

For your information I talked to Jim Leavelle today. First I wanted to start a dialog with him in order to get a better outlook on the insider's view.

Like yourself he was very KIND and spoke at lenght to me about the overall view.

I did ask him about Harvid Bubk's report to Leavelle, after all was on the scene of Tippit's murder. He was not aware of the report at all. Nor did he go to the library → after Tippit's murder.

However he asked for a copy and gave me the feeling he could help clarify it.

I'll let you know the outcome!

(Your letter reached me after my conversation, but I had also noticed the extreme lenght of time delay between the events and reports.)

I'll start your copies on my return to my office on Monday and get the

first batch to you.
I've also been into a group of Waggoner Carr's papers - I'll forward them also.
Once again Thank you so much for what you and your family have given - I hope some of us can live up to the standards you have set.
